AT&T Donates \$200,000 To Engineering School

The AT&T Information Systems Division, through the University Computer Donation Program of the AT&T Foundation, has contributed \$200,000 worth of new minicomputer and microcomputer equipment to the School of Engineering. The donation, part of a new \$2 million Fund for Engineering, includes three UNIX-based minicomputers, 17 UNIX PC microcomputers, three printers, and accompanying software and peripherals. The equipment will be configured as three clusters, housed in Echlin Hall, and available to all departments of the School of Engineering.

Dr. Ira Kleinfeld, chairman of industrial engineering and computer science, hailed the gift as "a significant increase in computer resources" for the school. "Students and faculty are enthusiastic about

State Police Commissioner Forst Named 1987 Distinguished Alumnus

Col. Lester J. Forst

Col. Lester J. Forst of Southbury, commissioner of the Connecticut Department of Public Safety, is this year's University of New Haven "Distinguished Alumnus." A 1976 UNH graduate with a bachelor of science in criminal justice, Forst has been selected to receive the award at the fourth annual UNH Scholarship Ball Saturday, March 28, at Yale Commons.

A 25-year member of the state police force, Forst was named commissioner in 1983. He is justifiably proud of his accomplishments thus far, including a commitment from the governor to bring the force to 1,146, an all-time high, and improved laboratories and equipment. Communications improvements are next on his agenda.

Forst is highly respected by his force and has earned the reputation of a "thorough, honest cop's cop who gets the job done."

Forst feels fortunate to have been able to benefit from the justice department's Law Enforcement Education Program (LEEP) funds made available in the 1970s for the education and training of policemen across the country. Forst received his associate of science degree in police science and administration in 1972 and continued on for his bachelor's degree in criminal justice in 1976.

Citing his education at UNH as the important edge in his success on the state police force, Forst says, "Education can't make a bad cop good but it does make a good cop better."

Continued on page 8.

Joseph Carilli Named VP for Administration

Joseph F. Carilli, an experienced administrator, engineer and attorney, has been named vice president for administration at the University of New Haven.

Dr. Carilli came to UNH from a position as associate dean of administration at Queensborough Community College, City University of New York (CUNY), where he supervised a support staff of approximately 200 people.

A graduate of the United States Coast Guard Academy in New London, he retired from active duty with the rank of commander, having served as director of facilities at the Coast Guard Academy; project manager of a \$48-million joint U.S.-Canadian maritime navigation network; and financial manager for the U.S. waterborne aids-to-navigation system.

Dr. Carilli also holds a bachelor of science degree in civil engineering from Rensselaer Polytechnic Institute and a juris doctor degree from the University of Connecticut. In addition to his academic credentials, he is a registered professional engineer and

has been admitted to practice law in the State of Connecticut, the Federal District Court and the U.S. Court of Military Appeals. He is an arbitrator for the American Arbitration Association.

While stationed in New London, Dr. Carilli taught criminal law at UNH as an adjunct faculty member.

Prior to his position at Queensborough, Carilli was executive assistant to the president at Bryant College and served as interim vice president there, directing fund-raising, public affairs, alumni and publications efforts.

"We are delighted to have a man of such wide experience join our staff," Dr. Phillip Kaplan, UNH president, said in announcing the appointment. "In addition to his qualifications as administrator, engineer and attorney, our new vice president's background has a major emphasis in personnel, facilities

Perkin-Elmer Corp. Donates Equipment

Perkin-Elmer Corporation of Norwalk has contributed \$25,000 worth of state-of-the-art chromatography equipment to the UNH School of Engineering chemistry and chemical engineering department and is part of the soon-to-be-announced \$2 million Fund for Engineering. The gift includes a high pressure liquid chromatography system and a gas chromatograph. The equipment will be available in the School of Engineering's Chemical Instrumentation Laboratory.

The gift "will be utilized extensively in our undergraduate course in instrumental methods and in two graduate courses, analytical environmental chemistry and chemical forensic analysis," according to Dr. George Wheeler, Jacob Finley Buckman Professor of Chemistry and Chemical Engineering. "The gas chromatograph will be used primarily for detection of trace amounts of organic compounds in environmental samples, analysis of arson debris for accelerants, identification and quantification of drugs and qualitative organic analysis," Wheeler explains. "The liquid chromatograph will be an especially useful tool in student experiments involving organic synthesis, environmental monitoring, polymer characterization

and enzyme purification."

"Perkin-Elmer values UNH as a key educational institution," Richard L. Fyans, Perkin-Elmer Corporate Donations Administrator, said in announcing the gift. "UNH has provided us with several talented employees and provides our employees with an excellent opportunity to continue their education. We are pleased to be able to show our appreciation by way of these donations and hope to provide additional support."

Chromatography allows the separation of complex mixtures by percolation through a selectively absorbing medium. In addition to chromatography equipment, the Fund for Engineering seeks additional equipment for the Chemical Instrumentation Laboratory, including a new nuclear magnetic resonance spectrometer and a Fourier transform infrared spectrometer.

The Fund for Engineering, which will be formally announced in the fall, is a \$2 million capital campaign to strengthen the School of Engineering with new computer resources, a Computer-Aided Engineering Center, new and renovated laboratory facilities and a dean's endowment for scholarships and faculty development. ■

ZBT BLOOD DRIVE; Donors tally 2,500 pints for American Red Cross since 1974.

NAACP Director Featured At Black History Month

Benjamin L. Hooks, executive director of the NAACP for the past decade, spoke at the University of New Haven Thursday, Feb. 26, at 7 p.m.

A feature presentation of Black History Month at UNH, Mr. Hooks' appearance was sponsored by the Black Student Union and the Day Student Government.

Prior to his selection as chief executive officer of the NAACP, Hooks had served as chairman of the Federal Communications Commission. He was appointed to the commission in 1972.

A native of Memphis, Tenn., Hooks is a graduate of DePaul University College of Law and practiced law in his hometown as well as serving as an assistant public defender and as the first black judge in the city's

criminal court. He also co-founded the Mutual Federal Savings and Loan Association and served as its president from 1955 to 1969.

In addition to his law, banking, federal commission and NAACP positions, Hooks is an ordained minister and is on leave from the Middle Baptist Church in Memphis and the Mt. Moriah Baptist Church in Detroit.

Hooks is a member of the board of directors of the Public Broadcasting Service, the National Alliance of Business, the League of Women Voters, the Legal Aid Society, the National Conference of Christians and Jews, Hampton Institute and LeMoyné-Owens College.

Black History Month also included entertainment events and a Caribbean Cultural Exposition. ■

Continued from page 1.

management, labor relations and planning."

Dr. Carilli succeeds John Benevento as vice president for administration at UNH. Benevento left the university in October to pursue business obligations.

The new UNH vice president for administration oversees student services, buildings and grounds and personnel.

Carilli and his wife, Carol, have three children. ■

AROUND CAMPUS

This information was written by the staff of the Public Relations Department.

Provost's Office

Dr. Alexis N. Sommers, UNH provost and a Bethany resident, has been elected chairman of the South Central Connecticut Chapter of the American Red Cross.

In addition to his university responsibilities, Dr. Sommers has maintained an active role in community affairs, both as a parent of two children and a public official. He served on the Bethany Board of Zoning Appeals and the Democratic Town Committee and also was a party-endorsed candidate for the Amity Regional Board of Education.

Dr. Sommers began his Red Cross volunteer service in 1978 and has served on the Planning Committee, Board of Directors and Executive Committee.

Dr. James Uebelacker, associate provost, has been named to a 15-member state commission to study the feasibility of a teacher standards board.

Uebelacker, president of the Milford PTA Council and on the PTA State Board of Directors, was recommended by the PTA for the new commission, an outgrowth of the Governor's Commission on Equity and Excellence in Education.

In addition to his PTA affiliations, Uebelacker is a member of the board of directors of the Quinipiac Council Boy Scouts and the Milford Association for Gifted Education. In June of 1986 he was honored as one of 10 recipients of the Good Samaritan Award in Milford, Woodbridge, Orange, West Haven and New Haven.

The National Council of Educational Opportunity Associations invited Dr. Nancy Rabianski-Carruola to serve on a panel to select models for instruction and counseling in Upward Bound. The selection process was scheduled for early February in Washington, D. C.

Dr. Rabianski has also been chosen to serve on the evaluation team for Green Mountain College in Poultny, Vermont, by the New England Association of Schools and Colleges, Inc. The evaluation process is scheduled for April 26-28. ■

School of Arts & Sciences

Dr. Gabor Huszar, associate professor at the Yale University School of Medicine, lectured on "Recent Advances in Human Reproduction Technology" at the University of New Haven on Tuesday, Nov. 25, 1986.

Dr. Huszar, the recipient of numerous grants for his research, is director of Yale's Sperm Physiology Laboratory and of its Uterine Physiology Unit.

Dr. Huszar's talk was part of the University of New Haven School of Arts & Sciences Lecture Series.

Previous lectures in the series have featured historians, writers, poets, psychologists and mathematicians including: Victor Vroom, psychologist/writer/lecturer; Louise Bates Ames, lecturer/child psychologist; Susan D. Amussen, lecturer/historian/sociologist; Alfred Corn, poet; Fred Chappel, poet; Kenneth Miller, mathematician/author; and John C. Kenen, BASIC inventor/mathematician and former president of Dartmouth College.

Dr. Benjamin B. Weybrew, associate professor of psychology, participated in an invitational conference entitled, "Individual and Group Behavior in Toxic and Contained Environments: A Conference to Explore the Psychological Effects of Chemical and Biological Warfare." Sponsored jointly by the U. S. Air Force and the Uniformed Services University of the Health Sciences, Bethesda, MD, the three-day conference was held December 12-14, 1986, in Airlie, Virginia. ■

School of Business

David A. Maxwell, chairman of the department of public management, is the co-author of a newly published comprehensive handbook on the applications of security management in the corporate security sector.

"Corporate Security Administration and Management" is published by Butterworths of Stoneham, Mass. and centers on the practical, using actual examples, cases, models and graphs.

Co-author J. Kirk Barefoot, first president of the American Polygraph Association, is director of the American Society for Industrial Security and a frequent lecturer on polygraph testing, employee theft investigation and undercover investigation.

The book includes analyses and successful recommendations and guidance in such areas as staffing, functions and responsibilities, strategies and operations, finance, loss prevention, investigations, labor situations, risk management integration, legal problems, protection of real and intangible assets and future security trends.

Maxwell is a former special agent for the F.B.I. and former chief of the F.B.I.'s New York City Office of Legal Counsel.

A 1985 UNH graduate, Lt. Gayle V. Blomberg, USAF, presently serving in Germany, is recognized in the book for her "time, support, help and administrative assistance." Lt. Blomberg is an American Society of Industrial Security (A.S.I.S.) scholarship winner and a magna cum laude security management graduate from UNH.

A three-part series on "Theory W," a new marketing concept by David J. Morris, Jr., is being published by the National Society for Performance and Instruction in its premier instructional design journal.

"Theory W: The Corporate Warrior" ran in the September issue of the journal; "Theory W Leaders: Making Presentations" was published in the October edition; and "A Review of Leadership Literature and the Call for a Unified Approach to Business" will be published early this year in *Performance and Instruction Journal*. ■

School of Engineering

Dr. Ronald Wentworth, associate professor of industrial engineering, spoke before the Naugatuck Valley Industrial Management Club on January 15 in Ansonia. His talk, "The Changing Face of Work Design," included the importance of incorporating human factors into the design of the work place.

Dr. Ali Montazer of Hamden, assistant professor of industrial engineering at the University of New Haven, discussed computer simulation at the February dinner meeting of the Naugatuck Valley/University of New Haven Institute of Industrial Engineers.

The meeting was held Feb. 17, at the UNH Student Center.

Dr. Montazer joined the University of New Haven staff in September, 1984. He earned his Ph.D. at the State University of New York at Buffalo where he taught before coming to UNH.

Describing simulation as once confined to research labs and large corporate mainframe computers, Dr. Montazer said the advent of mini- and personal computers has made simulation available now for small- and medium-sized companies. His talk also included the use of graphics in modeling and a review of software currently available for simulation. ■

School of Hotel, Restaurant & Tourism Administration

Dr. James Downey, acting dean of the school, attended a conference on developing and financing hotels. The conference was held in Washington, D. C., in November.

Dr. Angelo Bentivegna attended the Hotel Sales & Marketing Association international conference in Hollywood, Fla., also in November.

The University of New Haven has received a first place Award of Excellence from the National Restaurant Association for excellence in post-secondary food service education. ■

Graduate School

"Alternate Health Care Delivery Systems" is one of eight special graduate courses being offered by the University of New Haven this winter trimester.

Designed to meet the needs of health care professionals and students, the course focuses on the latest developments in alternative health care and the newest competitors to traditional hospitals.

Classes meet Thursday evenings at the Hospital of St. Raphael and are taught by William Olmstead, a health care professional who brings both practical experience and a health care educational background to the course.

Olmstead is regional director of Medical Management & Development Corporation, based in West Hartford with surgical centers around Connecticut and in Massachusetts. He received his bachelor's degree in accounting and his master of public administration degree with a concentration in health care management from the University of New Haven. In addition, Olmstead worked in hospital finance at Yale-New Haven Hospital for more than a decade.

"The need for alternative health care delivery systems is growing along with how the regulatory climate and advances in technology affect health care," Olmstead said, discussing the UNH course.

Olmstead is pioneering the course and is supplementing the one available textbook, *Hospital Competition*, with the latest articles and information. "There's so much new in the past four or five years that the topic no longer can be covered adequately as part of a health care administration course," Olmstead said.

The course covers the effect that third-party payers have had on health care; the new acronyms in health care—HMOs (health maintenance organizations), PPOs (preferred provider organizations), IPAs (independent physicians associations), DRGs (diagnosis-related groups); and new facilities such as free-standing ambulatory surgical centers, out-patient hotels, urgent care clinics and mobile emergency room and dental units. ■

Cooperative Education

Four new staff members have joined the cooperative education program at UNH as part of the planned expansion of the program supported by the \$374,686 cooperative education demonstration grant from the federal government (see December/January '87 *INSIGHT*).

Patricia Bolles will coordinate cooperative education for the School of Business. A graduate of Western Connecticut State University, she received her master's degree in secondary education at Southern Connecticut State University. In addition to teaching English and adult education courses in the North Haven school system, she has served as placement director/internship coordinator at the Academy for Business Careers in Hamden and as personnel director/training coordinator for Kabachnick in Middletown.

Andre Salsedo, named coordinator for the Schools of Engineering and Professional Studies & Continuing Education received his bachelor's and master's degrees in psychology at the University of Connecticut and earned a Ph.D. in cultural anthropology from Syracuse University. Salsedo served in the Peace Corps in Ethiopia and his professional experience includes teaching, research and consulting. Employment counseling in the New Haven area included working with Connecticut United Labor Agency, the APT Foundation and Harwood & Company.

Philip Schmitz, appointed coordinator for the Schools of Arts & Sciences and Hotel, Restaurant & Tourism Administration, completed his undergraduate work at the University of Salzburg and earned a master's degree in German literature from SUNY, Albany. While working for SAGE Associates in Albany, he produced a series of TV talk shows, edited the job search handbook, *Secrets of the Hidden Job Market*, and coordinated a city-wide job fair.

Kathryn Taillon, administrative assistant to co-op director Cheryl Lison, is a graduate of Sacred Heart with a bachelor's degree in business and is enrolled in the MBA/MPA program at UNH. She will maintain and develop the department's computer information system and coordinate administrative procedures with other UNH offices. Her past experience includes work as a legal assistant, specializing in real estate, and as an actuarial technician with The Travelers Companies.

In addition to the four new staff members, the Title VIII grant also allows for faculty representatives for each of the undergraduate schools. Representatives for spring 1987 are: Arts & Sciences, Dr. Henry E. Voegeli; Business, Richard Bassett; Engineering, Dr. Badri Saleeb; Hotel, Restaurant & Tourism, William Williams; and Professional Studies & Continuing Education, Robert Sawyer. ■

CO-OP EDUCATION: Joseph Arnold, outgoing director, and Cheryl Lison, head of the newly-enlarged program, discuss the past and future of cooperative education at UNH.

Student Services

Sgt. Arthur P. Sheehan BS '81 was honored in January at the West Haven Lodge of Elks Law Enforcement Night.

Sheehan, a member of the UNH Police Force for the past 17 years, has received commendations from the Department of the Treasury, Bureau of Alcohol, Tobacco & Firearms; the Federal Bureau of Investigation; and the West Haven Department of Police Services, as well as from the University of New Haven and the UNH Day Student Government.

He is a member of the New Haven County Detectives' Association, the International Narcotic Enforcement Officers' Association, the West Haven Police Department Emerald Society, the Washington Pietra Micca Club in Allingtown and the Benevolent and Protective Order of Elks, West Haven Lodge No. 1537.

In addition to his bachelor of science degree in criminal justice from UNH, Sheehan is a graduate of the Connecticut Police Academy and has completed numerous special certified training courses offered by the State of Connecticut and by the University of New Haven.

Kathleen Altier of West Haven, has been appointed coordinator of disabled student services at the University of New Haven.

A graduate of Southern Connecticut State University with a bachelor's degree in special education and a master's degree in counseling, Ms. Altier joins the university from a position as vocational counselor at the Whitewood Rehabilitation Center in Waterbury. Her prior experience included homebound tutoring for the Milford Board of Education, counseling at West Haven High School and teaching in Milford and New London.

Ms. Altier is responsible for learning disabled students as well as physically handicapped students at the University of New Haven.

Jim Anderson, director of financial aid, is a member of the Training Committee of the Connecticut Association of Professional Financial Aid Administrators.

Laurie Saunders, director of admissions, and Beth Critchley, assistant director of admissions, are members of the Planning Committee for the annual meeting of the New England Association of College

Admissions Counselors (NEACAC) to be held in May at the University of Rhode Island.

Lesa Loritts, associate director of admissions, is a member of the governing board and chair of the NEACAC Human Relations Committee. ■

Theatre

Theatre events for the spring semester began with the presentation of the first classical Greek tragedy ever to be staged at the university. *Antigone* by Sophocles was performed February 27 and 28 and March 6, 7, and 8 in Dodds Hall. The play was also scheduled to be performed at Greenwich High School on March 20.

Theatre director Lila Wolff-Wilkinson produced, directed and designed the presentation. Michael Kaloyanides, chairman of the department of humanities, fine and performing arts and a Greek music scholar, composed chants and incidental music for the production. Sharon Matthews, coordinator of the UNH interior design program, was set designer and Paul Falcone, head of UNH audio-visual service and a product of the university's theatre program, designed the lights.

On March 10, with support from the School of Arts & Sciences, the Day Student Government, the English department and individual donors, the department sponsored a day on campus with Nutshell Productions, a young British company, who ran workshops during the day and performed *Othello* in the evening. (Nutshell also performed *Macbeth* at the Schubert Theatre in New Haven.)

The Second Annual Black Theatre Festival will present *Paper Dolls* by Elaine Jackson, opening April 2 and running through April 4. The production, co-sponsored by the Office of Minority Student Affairs and the Black Student Union, will also run a free matinee on April 3 for area high school students.

Also in April, there will be a series of student-directed one-acts. Rounding out the season, the student theatre club, New Foundling Theatre, for which Wolff-Wilkinson is faculty adviser, will present a comedy, possibly Neil Simon's classic *The Odd Couple*.

All events will take place in the University Theatre in Dodds Hall. For further information, please call the theatre office, 932-7102.

Wolff-Wilkinson, in addition to her responsibilities on campus, is secretary of the National Association for Theatre in Higher Education for which she has made two trips to Kansas City this year for Administrative Committee meetings. ■

I.E.'s William Adams Named 1987 Distinguished Teacher

William R. Adams, an instructor in the UNH department of industrial engineering and computer science, is the recipient of the 1987 University of New Haven "Award for Distinguished Teaching."

The presentation was made during January commencement exercises.

Adams received his bachelor's and master's degrees at UNH and has taken post-graduate courses at Fairfield University, Wesleyan University, Yale University and the Polytechnic Institute of New York.

Adams teaches artificial intelligence and LISP classes. He joined the UNH faculty as an adjunct in 1975 and was named a full-time instructor in 1983.

Prior to his joining the UNH staff, he served as a consultant for firms in the areas of energy management and conservation and for the development, manufacture and production of high temperature ceramic materials.

Adams was selected for the award by a committee of his peers for his overall teaching excellence.

Prior recipients of the "Award for Distinguished Teaching" include: Dr. Wilfred Harricharan, management and marketing; Dr. Michael Morris, psychology; Dr. Shirley A. Wakin, mathematics; and Dr. Natalie J. Ferringer, political science. ■

UNH & University of Siena Will Offer Summer in Italy

The University of New Haven and the University of Siena jointly will offer summer study in Italy for undergraduate, graduate and post-graduate students across the United States.

Through the cooperative effort, the University of New Haven will serve as the source for content of courses and for academic credit. The University of Siena Sessione Senese per la Musica e l'Arte will provide the facilities, coordinate travel and living accommodations and administer the program.

Siena is a medieval city in the mountains of north central Italy, 30 miles south of Florence, in the heart of Tuscany.

The agreement, made by the UNH School of Professional Studies & Continuing Education, begins with a Summer '87 program. The UNH department of humanities, fine & performing arts will offer two courses entitled "Music, Art and Culture of Siena and Its Surroundings" for graduate and undergraduate credit.

Participants will live in local housing to add to the cultural exchange between students and native residents. The University of New Haven's guidelines concerning academic quality, class size and faculty qualifications will

apply to all offerings in Siena. Classes will be taught in English.

This summer's Siena study begins July 12 and continues through August 18. In addition to five weeks of intensive study, the program offers cultural trips to nearby Perugia, Assisi, Venice, Florence and Pisa and optional overnight excursions to Switzerland, France and Rome. Approximate cost for the program, including academic credits, is \$2,000.

Dr. Richard Morrison, acting director of the UNH Evening Division, is screening academic inquiries. He may be reached at the University of New Haven Gatehouse, 300 Orange Ave., West Haven, Conn. 06516 (203-932-7231). Dr. Joseph Del Principe, music director and liaison for the University of Siena, can be reached at 595 Prospect Rd., Waterbury, Conn. 06707 (203-754-5741).

The Siena-Cheshire Symphony Orchestra will present the second annual concert May 17 at 7:30 p.m. at Thorpe Auditorium, Cheshire High School in Cheshire. Under the baton of Joseph Del Principe, the orchestra will perform music by Beethoven, Bizet, Puccini and Tchaikovsky. ■

William Adams

Commencement Address Gives Five Suggestions for Success

Do today's work today. Make only original mistakes. Maintain the three H's: humility, humor and humanness. Know the importance of stamina, perseverance and second effort. Make a commitment to something outside yourselves.

These are the five suggestions presented to the January, 1987 graduates at commencement exercises by Dr. Augustus Aaron White III, principal speaker and recipient of one of three honorary doctor of humane letters degrees.

"Don't take yourself too seriously," White emphasized. "A good way to avoid this is to be able to accept, if not generate, a bit of humor about yourself."

White, a prominent orthopedic surgeon and winner of numerous awards for his scientific and humanitarian services in the health field, took his own suggestion by weaving several humorous personal anecdotes into his presentation.

"Live life in day-tight compartments," he urged. Instead of pondering the past or spending inordinate time and energy on the future, "... take care of the tasks before you every day.... One will inevitably accrue certain small and large increments of achievements and tasks completed. Over a period of time, these little units of work done coalesce into significant achievement and progress," he said.

White is a member of the staff of the Harvard Medical School; Beth Israel Hospital, Boston; the Veterans Administration Hospital in West Haven and both the Hill Health Center and the Connecticut Health Care Plan in New Haven. He received his honorary degree for his "... devotion to scholarly research in the biochemistry of the spine, commitment to the establishment of an engineering laboratory for musculoskeletal diseases, continuing creativity in the application of new technologies to ancient ills, tireless dedication to the improvement and training of a new generation of health professionals..." and his "... ability to turn a lifelong search for scientific truth into service to the human race...."

White was named "Exceptional Black Scientist of the Year" by the CIBA-GEIGY Corporation in 1982 and received, among numerous other awards, the Kappa Delta national prize for outstanding research in orthopedics in 1975.

Receiving the "University Award for Distinguished Teaching" was William R. Adams of Woodbridge, an instructor in the department of industrial engineering and computer science.

Honorary degree recipients, in addition to White, included Paul Horgan, author and educator at Wesleyan University, and Robert Jay Lifton, author and psychiatrist.

Horgan's honorary degree cited his contributions as a "... creative educator, author and scholar of the historical past as a key to understanding the present and for the impact..." of his life and work "... as a true mold for the human spirit of the twenty-first century...."

Lifton, whose latest book, *The Nazi Doctors*, was reviewed in *The New York Times* in October, was honored for his "... integrity as a man of science; compassion as a man of healing..." and for his "... condemnation of medical experimentation as a crime against humanity...."

Norman I. Botwinik, chairman of the UNH Board of Governors, presided at the commencement ceremonies where some 730 undergraduate and graduate students received their degrees. The invocation and benediction were given by the Rabbi Lawrence Heimer of Congregation Sinai in West Haven. Music was provided by the Chamber Orchestra of New England Brass Quintet. ■

COMMITMENT TO FUTURE: Commencement, January 18, 1987.

NAMOS ON CHANNEL 8: Skip Church interviews Germain Glidden, NAMOS chairman, for Channel 8 sports special, aired Jan. 20.

COMPUTER-AIDED ENGINEERING CENTER OPENS: Francis A. Schneiders, AS '54, president of Enthone, Inc., and executive committee chairman of the soon-to-be-announced Fund for Engineering, addresses well-wishers at the opening of the center, the first step in a multi-million dollar expansion of facilities, laboratories, scholarships and faculty in all departments of the UNH School of Engineering. With him is Dr. Konstantine Lambraikis, dean of the School of Engineering.

PREPARE FOR THE NEXT CENTURY: Stephen I. Schlossberg, deputy undersecretary for labor management relations and cooperative programs for the U.S. Department of Labor, the UNH School of Business, "'87 Distinguished Lecturer," urged a Feb. 2 audience to be "sensitive to human values."

PRESIDENTIAL GREETING FOR PRESIDENTIAL SCHOLARS: Dr. Phillip Kaplan congratulated the 1986-87 Presidential Scholars at a reception given by the Alpha Lambda Delta Honor Society in November.

OUTSTANDING MATHEMATICIAN: Dr. Ralph P. Boas, Jr., professor of mathematics at Northwestern University in Evanston, Ill., presented the "Outstanding Mathematician" lectures at UNH Feb. 4.

Engineering Students Win Buckman Awards

Four University of New Haven School of Engineering graduates are sharing Jacob Finley Buckman Awards for Academic Excellence.

The four, Christopher Romanoff of Milford; Harlan Tait of West Haven; James F. Buckley of Branford; and Edward Dowd of Meriden, received their awards at ceremonies following the Sunday, Jan. 18 commencement exercises at the University of New Haven.

The awards were established by Mrs. Clarice L. Buckman, a friend and benefactor of the school, in honor of her late husband, Jacob Finley Buckman, founder of Enthone, Inc. of West Haven.

Romanoff, who received his bachelor of science degree in electrical engineering, accumulated a 3.92 academic record at UNH and received the \$1,500 award.

Tait, a civil engineering student, achieved a 3.84 average and received \$1,000. He is a past president of the Lambda Delta Honor Society at UNH and a member of Chi Epsilon, the honorary civil engineering fraternity.

Buckley, majoring in mechanical engineering, accumulated a 3.63 average and is a member of Pi Tau Sigma, the national honorary mechanical

engineering fraternity. He received \$1,000.

Dowd, who received his bachelor of science in chemical engineering, maintained a 3.48 average and received \$1,000. An evening student, he is employed by Eotec Corporation as a senior development engineer in fiber optics.

The four graduates were selected by the engineering faculty for their outstanding academic records and extraordinary character suitability for the professions of engineering and applied science.

The UNH School of Engineering is the only private school in Connecticut accredited in four engineering departments — mechanical engineering, industrial engineering and computer science, civil and environmental engineering and electrical and computer engineering.

An equipment grant from Prime Computer, Inc. of Natick, Massachusetts, announced earlier this year, enabled the university to acquire a super-minicomputer for the university's new Computer-Aided Engineering Center. The equipment is the first step in a planned multi-million-dollar expansion of facilities, laboratories, scholarships and faculty in all departments of the UNH School of Engineering. ■

UNH MBA Grad Named "White House Fellow"

by Katherine E. Cowles

Robert G. Schwetje, MBA '81, is one of eleven private citizens to be awarded a White House Fellowship for 1986-1987. He was chosen from 585 nominees to receive this honor. Schwetje, who is a vice president at Valleylab, Inc., a subsidiary of Pfizer, in Boulder, Colorado, credits his MBA in organization and management from UNH as a significant factor in his selection.

Founded in 1964, the President's Commission on White House Fellowships draws individuals of exceptionally high promise to Washington for one year of personal involvement in the process of government.

The selection committee bases the awards on "high levels of achievement early in one's chosen career or profession, a demonstrated leadership capability, an assemblage of skills that would make one a good special assistant in the short run and a national leader in the long run, and substantial indications of a commitment of service to others in the community in which one has lived."

As a personnel executive at Pfizer, Schwetje has had personnel management responsibility for the largest manufacturing facility in New York City, served as the company's spokesman for a major

labor negotiation in California and was the first personnel management employee in the company's history to be promoted to the position of vice president at a site location. In addition to his UNH degree, he holds an undergraduate degree in American government from Georgetown University, and an MPA from Golden Gate University. He served as an officer in the U.S. Marine Corps and currently serves on several community organizations in Boulder.

Schwetje was nominated for the program by a fellow Pfizer employee and was assigned to the office of the Secretary of State. He describes as highlights

of the program the foreign and domestic travel opportunities and the bi-weekly classes featuring top-level administrators who speak frankly and off-the-record about all phases of government.

Schwetje, who has returned to his home in Boulder, says of the Fellowship experience,

"The program owes its inspiration to 18th-century colonial leaders . . . to take ordinary citizens and give them a personal involvement in leadership . . . not to become a professional politician, but to take the knowledge gained and use that understanding in one's career. I'm grateful to have had the unique opportunity to follow in the spirit of Thomas Jefferson." ■

Letter from Ecuador

UNH Grad Serves in Peace Corps

Glenn A. Germaine, MBA '86, of Trumbull, Connecticut is currently serving in the Peace Corps in Guayaquil, Ecuador, South America. In a letter received in the Alumni Office in December, 1986, he described the country and some of his experiences and made some observations about this unique opportunity.

"Ecuador is roughly the size of Colorado, with almost 9 million people. There are three distinct regions: the low-lying coast (including the Galapagos Islands); the central area, or sierra; the eastern part which is mostly jungle. Travel around the country and you feel like you're actually in three separate countries.

"It's amazing to see the strong differences between the coast and the sierra—dress, music, food, temperature, attitude of the inhabitants, etc. The Serranos have historically been more reserved, whereas the Costenos are known to be aggressive, extroverted. Throughout

Ecuador's history there has been much rivalry between these two regions.

"Racially, the population is roughly 40% Indian, 40% mixed Spanish-Indian, 10% pure Spanish, 10% black. Oil was discovered in 1973 and the country's other major exports are bananas, cocoa and coffee.

"I live by myself in an apartment in the center of Guayaquil, a city of approximately 1.8 million inhabitants. The country's largest seaport is located here, where almost all the imports and half of the exports in Ecuador pass through. The city is modern and bustling with many banks, office buildings, hotels, etc. The climate is subtropical, with two seasons: winter (Dec.—May), the rainy, hot season, and summer (May—Dec.), the warm, dry season.

"After spending three months in training (language, culture and technical), I was assigned to a private agency's loan

program which deals exclusively with small enterprises, often proprietorships and small family businesses. These range from artesans, tailors, woodworkers and bakers to street vendors and market merchants. This section is commonly referred to as the 'informal sector' of the economy and comprises at least 50% of all economic activity here. Our loans are intended to provide working capital for these businesses so that in time they might expand, thereby creating additional jobs.

"I have always enjoyed learning about other cultures and relished the opportunity to apply what I'd learned in an unstructured environment. To be a successful Peace Corps volunteer, one must adapt to the surroundings and forget about comparing methods here with the way we did things back home. Working conditions in a developing country are much less regulated than in the States.

So many things we take for granted—phones that always work, reliable transportation, the North American punctuality—can't be counted on here, but the Ecuadorans admire our high standard of living and 'Yankee ingenuity.' "

Glenn, who also holds a BA from UConn in Spanish, says of his UNH experience that he was challenged. He particularly enjoyed the students from other countries and found it stimulating to have such diverse classmates.

Glenn's letter reflects his enthusiasm for his Ecuadorian experience. He says he has learned much from talking to the people, has a different outlook on life and is constantly "discovering new things with each journey" he takes.

He'd be happy to share further thoughts with his UNH friends and would welcome letters from fellow alumni. His address is:

Glenn Germaine
Casilla 5161
Guayaquil, Ecuador,
South America. ■

Continued from page 1.

A crucial ingredient of an education, he says, "is the historical perspective it gives, the ability to learn from the past to deal with the present and all kinds of current questions, problems, matters."

Forst has continued his fascination with history past his baccalaureate degree, keeping up with the latest history and war books as well as best sellers of the genre including Thomas Clancy's "Hunt for Red October" and "Red Storm Rising."

Forst's attention to detail carries over from his professional life into his free time. An avid sportsman, Forst likes to vacation in the wilds—hiking and canoeing or stalking deer in Maine and, occasionally, grizzlies in Alaska. "It's an effective way to combat stress," he says. But it's more than, "pitting man against nature

rather than humanity," that gives Forst the label of true "outdoorsman." He likes to bring back dinner but he's equally fascinated with the ecological and environmental balances or the varying hibernation temperatures of the ground hog and the bear. The ground hog has a lower body temperature and a deeper sleep than the grizzly, according to his studies. "That kind of thing makes a big difference if you're visiting the cave of a bear."

A native of Beacon Falls and a graduate of Seymour High School, Class of 1953, Forst spent five years in the United States Marine Corps, leaving with the rank of staff sergeant.

After discharge, Forst worked as a truck driver and utilities lineman but made a commitment to a career in 1962 when he entered the State Police Training

Academy. For the past 25 years he has dedicated himself to public safety, serving throughout the state and rising rapidly in the ranks from his first assignments as a trooper in Litchfield and Bethany. He served as a resident trooper in the town of Southbury for four years, was promoted to corporal in 1971, to sergeant in January of 1973 and transferred to the detective division and to lieutenant in July of that same year.

As a lieutenant he served in several positions including commanding officer of Troop L in Litchfield; Troop A in Southbury; commanding officer of the Narcotics Division, the Tactical Unit and the Statewide Organized Crime Investigative Task Force.

Forst was promoted to captain in 1979 and was assigned as commanding

officer of the Central Division which includes troops in Hartford, Bethany, Stafford Springs and at Bradley International Airport.

Forst was promoted to colonel and appointed deputy commissioner of public safety in 1981 and to commissioner in 1983.

Forst and his wife, Patricia, have four children.

Forst is the fourth UNH alumnus to receive the "Distinguished Alumnus Award." Previous recipients include: Joseph F. Duplinsky, A.S. '41, chairman of the board of Blue Cross & Blue Shield of Connecticut; Orest T. Dubno, B.S. '68, M.P.A. '75, executive director of the Connecticut Housing Finance Authority; and William A. Webb, B.S. '71, commissioner of the United States Equal Employment Opportunity Commission. ■

SPORTS

This information was prepared and written by the sports information director for the Athletic Department

Past and present baseball players, coaches, sports officials and friends gathered at Sante's Manor in Milford Dec. 5 to celebrate "25 Years of Vieira" and Frank (Porky) Vieira's record-breaking accomplishments. Highlight of the evening and a complete surprise for "the coach" was the naming of the UNH baseball field in his honor.

BEDROCK BEDROSIAN GIVES HANDSHAKE AND CHECK: Former UNH player Steve Bedrosian, now with the Philadelphia Phillies, presents Frank Vieira with a "thank you" check.

VIEIRA & HIS FAMILY Several generations gather to pay homage to one of their own

ALL SMILES: (From left) ESPN's George Grande, toastmaster for the celebration; Steve Bedrosian, Philadelphia Phillies; Frank Vieira, Bobby Valentine, manager, Texas Rangers, featured speaker, and William Leete, UNH Director of Athletics

UNVEILING: Dr. Phillip Kaplan (at podium) and William Leete surprise the coach with plaque naming Vieira Field

CUTTING THE CAKE The coach's daughters present their dad with a cake, complete with dugout and baseballs

Coming in the next issue:
Round-ups on record making UNH athletic teams.

A LUMNI

HOCKEY NIGHT: Alumni and friends enjoy the Nighthawks vs. USSR game at the New Haven Coliseum Dec. 12.

Continued from page 1.

a UNIX-based system that allows additional work in graphics, programming languages and other local area network laboratory activities," Kleinfeld said. Dr. Roger Frey, professor of industrial engineering and computer science, said, "The clusters will provide networking experimentation across clusters, serve as a teaching tool for networking courses and provide a different resource for UNIX-based work. The clusters will have a number of languages available for students and faculty and provide a convenient and flexible new windowing interactive environment," he said.

"This gift is part of an ongoing partnership between AT&T and the University of New Haven," Don Fiorentino of the AT&T Information Systems Division in Stamford said. "AT&T is dedicated to strengthening higher education, especially in the areas of engineering, business and computer science." AT&T has made several other significant gifts to UNH, including assistance in the purchase of Echlin Hall and equipment donations to the microcomputer laboratory housed in Echlin.

This newest gift will be configured in three clusters. The Computer Science and Computer Engineering Cluster will provide computer science and computer engineering students with a resource primarily for course work and research activities in the UNIX environment in areas such as

ALUMNI PHONATHON: Orest (Tom) Dubno, BS '68, MPA '75, alumni association president, and Robert Barrington, Jr., BS '71, MPS '77, '86-'87 phonathon chairman, discuss solicitation strategies during a phoning session.

artificial intelligence, computer graphics and systems and network design. The Engineering Education and Applications Cluster will provide computer support to the curricular programs of the engineering core including mathematics, programming languages and engineering design and applications computations. This cluster will be dedicated solely to student course work and project needs. The third cluster, The Advanced Engineering and Research Cluster, will allow graduate fellows and faculty to work on research targeted for the UNIX environment. ■

Phonathon Response "Excellent"

The second phase of the 1986-1987 Phonathon for annual giving began on February 17 and continued through March 12.

During this session, alumni who had not pledged or given for fiscal year 86-87 were called. "Response has been excellent," says Phonathon chairman Robert Barrington, Jr., BS '71, MPA '77. "Alumni always enjoy talking with a representative from the university community. There is so much happening on campus that is bringing national attention to UNH. Alumni know

that this is due in part to their generosity and there is tremendous enthusiasm for sharing in that success."

Alumni who haven't received a call who would still like to pledge for 86-87 are asked to call the Alumni Office at 932-7130, or send their contribution, made payable to UNH, to the Alumni Office, 300 Orange Avenue, West Haven, Conn. 06516. Pledges are payable by June 30, 1987 if they are to count toward the current fiscal year. ■

Alumni Directory Due This Summer

Moore Data Management Systems, of Indianapolis, Indiana, will publish the first UNH alumni directory. Publication is slated for summer of 1987.

The Alumni Office staff is busy compiling the data received on survey forms.

Directory orders are still being

taken, but time is running short. If you have not already completed and returned your questionnaire or placed your order, please do so today.

Questions concerning the survey or the directory should be referred to the Alumni Office at 932-7270. ■

Notes

1965

John Conway has been promoted to full professor in criminal justice at Housatonic Community College in Bridgeport, Conn. He joined Housatonic in 1972 as assistant professor and coordinator of the criminal justice program. He was promoted to associate professor in 1979. He holds an AS degree in police science and administration and a BS degree in business administration from the University of New Haven. He received his MPA in public administration degree from New York University. He is a former sergeant with the New Haven Police Department. He lives in Hamden, Conn.

Ellsworth G. McGuigan is acting dean of instruction at Waterbury State Technical College in Connecticut. He has been a member of the college faculty for 20 years and has served as the chairman of the Electrical Engineering Technology Department of the college for the last 10 years. He and his wife, Joanne, and their two daughters live in Branford, Conn.

1968

Daniel L. Santangelo is vice president and group general manager of the soup and dry foods business units at Campbell Soup Company. He has been elected to the Board of Trustees of the Foundation of the University of Medicine and Dentistry of New Jersey. He is a member of the Planning Executives Institute of Greater Philadelphia in Pa. He lives in Moorestown, N.J.

1969

Jack J. Criscuolo is vice president of banking at the Bank of Boston-Connecticut. He and his wife, Elaine, have two children and live in Woodbridge, Conn. Michael J. Hartnett is vice president of technology at the Torrington Co. in Torrington, Conn. He is responsible for corporate research and development and manufacturing development center activities. He also works with divisional vice presidents to develop the highest possible level of technical competency in each of the company's business units worldwide. He lives in Woodbury, Conn.

1971

Robert B. North, a West Dover realtor and developer, has been named to the Wilmington Regional Board of Vermont National Bank. He serves on the Board of Directors of North, North & Nelson, a Boston consulting firm in Mass. He and his wife, Margaret, and their three children, live in West Dover, Vt.

1972

Joseph E. DePaola, attorney-at-law, is a partner in the law firm of Grazioso, Perrotti, Hosen and DePaola with offices in New Haven and North Haven, Conn. Raymond Ott has been named assistant vice president of the commercial lending department at Derby Savings Bank. He and his wife, have three sons and live in Oxford, Conn.

1974

Randolph Ellis, Jr. has been promoted to development agent of the sales office at Allstate Insurance in Hamden, Conn. He lives in Hamden.

William Lamb has been named superintendent of police in Waterbury, Conn. A Waterbury resident, he has been with the department for 31 years.

1975

Donald A. Paulson, a journalist and college professor, has been appointed to the communications faculty of Southern Vermont College in Vermont.

1976

James Ciarlegio is the store manager at David Harvey Jewelers. He lives in Waterbury, Conn.

Daniel L. Kovlak has completed a two-year practice fellowship at the Governmental Accounting Standards Board and has returned to Peat Marwick in Stamford, Conn. as a senior manager. While at the GASB, he also wrote several magazine articles and made numerous speeches about governmental accounting. He is a two-time past president of the Milford Lions Club. He and his wife, Terri, live in Stratford, Conn., with their three children.

1977

B. R. Vijayendran, manager of new applications for air products and chemicals, Inc. in Allentown, Pa., has been appointed secretary of the flexible packaging committee of TAPPI's Polymers, Laminations and Coatings Division. This committee is concerned with the technology involved in flexible packaging for food, pharmaceutical and personal care as well as industrial and graphic arts laminations. TAPPI is a worldwide professional organization for the advancement of technology in pulp and paper, packaging and converting, and allied industries. He also holds 12 patents in such fields as coatings, adhesives, inks, latex polymers and water borne resins.

1978

Kevin Boyle is market manager of distribution at Locite Corporation in Newtonington, Conn., has been named to the National Industrial Distributor and Southern Industrial Distributor Associations' "Distributor Partnership Support Award." He lives in Madison, Conn.

Howard Dwyer, a 27-year Waterbury Police Department veteran, has been named to the newly-created position of police superintendent in that city where he lives with his wife, Delores.

1979

M. Dean Keeney is partner-in-charge of the New Hampshire tax practice of the Ernst & Young Whinney accounting firm. He is a member of several professional associations. He is on the planning committee of the Manchester United Way and is a director of the Bedford Rotary Club in New Hampshire. His wife Andrea Keeney, is a former assistant to the president and board of governors at UNH.

Eugene R. Matera has been decorated with the Meritorious Service Medal in Spain. The

award is specifically for outstanding non-combat meritorious achievement or service to the U.S. He is a personnel director with the 46th Combat Support Group.

1980

Michel Benoit is vice president of operations for Cadence Chemical Resources Inc., in Michigan City, Ind. His responsibilities include production, quality assurance, and transportation, as well as for engineering and development of new processes. He and his wife, Celeste, and their three children live in Michigan City.

Alexander K. Daggett is vice president, Trust Administration at Union Trust Company, in the New Haven, Conn. Executive Office. He is the bank's investment product manager for pension and endowment portfolios. He serves on the boards of directors of the Children's Center, the Volunteer Action Center and Leila Day Nurseries, Inc. He is a trustee of the Connecticut Trust for Historical Preservation and the Pine Orchard Union Chapel Association. He has held various chair positions in 11 United Way of Greater New Haven annual campaigns. In addition to his MBA from UNH, he is a graduate of Clark University, the New England Banking School at Williams College and the National Graduate School at Northwestern University. He is a resident of Branford, Conn.

Alexander K. Daggett

Richard Losh has joined SIKON Corporation/General Contracting Co., Inc., in Mass., as an estimator for both commercial and residential construction. His responsibilities include estimate preparation, proposal development and negotiation.

Tania Sapko is a criminal justice planner and research analyst at the Vera Institute of Justice in New York. She recently spoke to the Hong Kong Society of Criminology on "Alternative Sentencing in the U.S." at a convention in Hong Kong. She lives in Seymour, Conn.

James Tucker is a patrolman in Portsmouth, N.H. He served with the West Haven Police Department in Connecticut, and was highly recommended by former superiors and the Connecticut Attorney General's office.

1981

Heidi Susla has been promoted to production coordinator at the Usaker Studio in East Hartford, Conn. She lives in Torrington, Conn.

1982

Janice Dargel is marketing director for Creative Connections, a training program expanding creative skills and strengthened managerial mastery. Creative Connections is a project of Joyce Schmidt Consulting in Waterford, Conn. She lives in East Lyme, Conn.

Kathi McDonnell-Bissell is executive director of Milford Elderly Services in Milford, Conn. She and her husband, Robert, have three daughters and live in Milford.

Rocco G. Trunzadi, a retired captain with the Bridgeport Police Department in Connecticut, is director of security for St. Vincent's Medical Center in Bridgeport. He lives in Monroe, Conn., with his wife, Kathleen, and their four children.

1983

Arthur Canter has been appointed chief executive officer of Visiting Nurse Associations of Massachusetts Inc. He lives in Roslindale, Mass.

Joseph D'Auria is chief executive assistant-auditor to the treasurer in Dedham, Mass. He oversees the office auditing work reviewing vouchers, checking payment warrants and handling internal operations.

Karen S. Lee, executive director of the Governor's Council on Voluntary Action since 1981, was the speaker for the annual meeting of Friends in Southbury Helping at the Southbury, Conn. Town Hall. FISH is a part of a world-wide service organization which provides technical assistance to volunteer organizations and sponsors programs to encourage volunteerism among students and corporations. She lives in Southbury.

James Longo, a psychiatric clinician at Lawrence and Memorial Hospital in New London, Conn., recently attended an advanced clinical seminar in Cambridge, Mass., on couples' group therapy and family of origin. He has a master's degree in community psychology from the University of New Haven and works in the hospital's out-patient clinic.

1984

Sandol Astrausky is playing in an old time music band, the Stompers. She spent a year in 1981 traveling Europe studying different fiddling techniques. The group has performed in New England and throughout southern states. She also gives fiddle lessons.

Richard Racsco was designated a naval aviator when he received the Wings of Gold from the Department of the Navy in Norfolk, Va. His curriculum included basic studies in engineering and navigation, training flights for simulators, aircraft familiarizations, basic received and advanced instrument training, extended navigation flights and landings aboard aircraft carriers.

Robert S. Sweeney is a sales associate at Schlott Realtor's sales office in Danbury, Conn.

1985

Harry L. Bafundi has been promoted to vice president of real estate development and

administration for The Giegerich Co., a Westport, Conn. based commercial developer.

Andrew A. Fraser, has been elected as Student Justice on New York Law School Judicial Board. He was presented with a Certificate of Honor in the first year Moot Court Competition. He is the winner of the NYLS "Best Team" award for 1986 and ranked second in the NYLS Interannual Competition. He was appointed to the Moot Court Association and elected to the National Appellate Advocacy Team representing NYLS. During the 1986 summer, he was a law clerk at Altier, Wayne and Klein Law Firm in NYC. He is also a part-time graduate assistant at The College of Insurance in NYC. A former DSG president, he lives in Norwich, Conn.

John J. LaBacca is director and shareholder of LaBacca & Anastasio, P.C., which has offices in Westport and Woodbridge, Conn. He is a member of the Connecticut Society of CPAs, its Federal Taxation Committee, and the American Institute of CPAs. He is also a member of the Connecticut Estate and Tax Planning Council. **J. Brett McAllister** received the Waterbury Firefighters Association Local 1339, firefighter-of-the-year award. He joined the Waterbury, Conn., department in 1982.

Walter Payne has been named as director of partial hospitalization services at Manchester Memorial Hospital in Conn. He worked for three years at the Yale Psychiatric Institute, a long-term residential treatment facility for adults and young adults, as director of recreation services of the adult unit and as unit director for the psychotherapy program. He lives in Guilford, Conn.

James B. Wood is a bank examiner for Federal Home Loan Bank of Boston in Boston, Mass. He and his wife, Toni, live in Hamden, Conn.

1986

Steven J. Earley is an assistant engineer at T.P.A. Design Group in New Haven, Conn. He lives in Orange, Conn.

Gregory Fitzpatrick is maintenance foreman at Terry Corporation in New London, Conn. He recently attained the status of Certified Plant Engineer. The distinction was granted by the Certification Board of the American Institute of Plant Engineers.

Alaric J. Fox, a cum laude graduate in criminal justice and a sworn police officer in Willimantic, Conn., is presently attending Western New England School of Law in Springfield, Mass.

Jill Karmarski is a news writer for WEEI 590 News Radio in Boston, Mass. She lives in Weymouth, Mass.

Anthony C. Tomassi is assistant field agent, shoreline division of Bradley's division of Stop & Shop. He has twelve stores under his jurisdiction.
